SITE PLAN APPLICATION INFORMATION:

The City of Edina Planning Department encourages healthy development within the city of Edina. Although this document is meant to serve as a guide for the application process for development through the Planning Department it is by no means comprehensive. The Planning Staff recommend that you schedule a meeting to answer any questions or to discuss issues that may accompany your project. It is much easier to tackle problems early on in the process. The office number for the Planning Staff is (952) 826-0465.

Notice of Public Hearing: Notice of the Planning Commission and City Council hearing is mailed to all property owners (of record at City Hall) that are located within 1000 feet of the site. Notice is mailed ten (10) days prior to the hearing. You are encouraged to contact adjacent or close owners and advise them of your proposal prior to the Planning Commission meeting.

The Commission holds a public hearing and adopts a recommendation which is forwarded to the City Council for consideration. Site Plan proposals are usually heard once by both the Commission and Council unless otherwise directed.

Staff Report: Staff prepares a report and recommendation and sends it along with the application materials to the Commission in advance of the meeting. All plans, emails and written information are public information, which may be used in the staff report and distributed to the public.

Initiation of a Traffic Study:*

Generally, the following typical development and zoning applications are intended to define the need for traffic studies to be considered by the Transportation Commission.

- A. Development approvals where an increase in trip generation is anticipated:
 - 1. Development where units are needed
 - 2. Development consisting of complete demolition/redevelopment
 - 3. Development of a site (where increasing floor space by more than 10%)
- B. Development or redevelopment is proposed in an area in which there has been a previous identification of a traffic problem, including but not limited to congestion or safety issues.

In cases where certain applications are received that do not necessitate a traffic study, staff will provide a summary to the Transportation Commission of such.

*please contact the Engineering Department at 952-826-0371 for further information.
